A Classic Display of the Washington Monument and the Iconic Cherry Tree Blossoms in Washington, D. C.

NOTE: In our opinion, this is one of the finest pins we have been privileged to include in a catalog in a long time. It can be considered a keepsake for the 109th International Convention, which will be conducted next year in Washington, D.C. It is a fund-raiser to help offset the cost incurred by LCI in the conduct of the convention. It may be purchased from PDG Jim Minnich.

THE 1950s & LANDMARKS, MONUMENTS, and MEMORIALS

Back in the 1950s one could buy a car advertised in the famous Sears-Roebuck catalog. To the left is a blown up page from the catalog advertising a car made by Kaiser-Frazer. The price for the auto ranged from $1,395 to $1,695, with a low down payment and easy monthly payments. What was not advertised was the fact that there was some assembly required by the buyer.

The North Carolina pin traders have issued a two-pin set (shown below) featuring the ad and a companion pin depicting the car.

The Survivor Tree

NOTE: The pin to the left is a picture of the Murrah Federal Building with a reflecting pool between the Field of 168 Bronze and Stone chairs. The 168 number represents the individuals, including 19 children, who died in the bombing of the building on 19 April 1995. Timothy McVeigh was convicted and executed for this cowardly act of terrorism against the federal government . The pin on the right shows an American Elm tree that survived the blast.
